U.S.A. Decaying From Within

TALMUDISTS AND COMMUNISTS SUBVERTING NATION THRU IMMORALITY

Republised from—

Liberty League, U.S.A.
Los Angeles, California

Anti-Christian organized homosexuals are carrying a subversive anti-morals campaign into the nation's churches, universities, state legislatures and Congress to destroy sexual laws and moral codes, to legalize sodomy, promote perversion and to corrupt youth.

Mrs. Connie Clare Chandler, president of the Liberty League, U.S.A., a patriotic conservative group combating communism and subversive liberalism, made the charge in a bulletin to league members.

Investigators, she said, uncovered the activities of the Daughters of Bilitis, a nationwide and international secret lesbian society of San Francisco with known chapters in Chicago, New York and Indonesia.

The Bilitis, Mrs. Chandler disclosed, is affiliated with the notorious Mattachine society of organized homosexuals whose influence and power reaches into the White House, all federal agencies and many members of Congress.

The Washington Mattachines were investigated in 1963 by the House District of Columbia Subcommittee No. 4, found to be operating secretly, and hearings were held with Representative John Dowdy of Texas as chairman. Dowdy warned Congress on July 5, 1963: "The acts of these people are banned under the laws of God, the laws of nature, and are in violation of the laws of man."

Franklin Kameny, president of the Washington Mattachines, testified "there are at least 200,000 homosexuals in federal government and a quarter of a million in the armed forces."

The House committee was shocked. Federal statutes prohibit homosexuals on federal payrolls in any branch of the government. Dowdy asserted: "All of the security risks that have deserted the United States and gone over to the Communists have been homosexuals." He also disclosed pressure opposition "by people in government" against the investigation of homosexuals.

Kameny told the committee the Mattachine objectives are "to equalize the status of homosexuals by achieving equality . . . cooperate with other minority organizations . . . for full civil rights."

The Daughters of Bilitis, Mrs. Chandler said, were cited in the hearings. The Liberty League, she said, investigated the lesbian society because of the case of Frederick Seelig, former California newsman who was imprisoned in 1960 for nearly two years without trial or conviction of any offense after he made charges of homosexual Communist power in government and the judiciary.

She said many documents substantiate that corruption methods were used by the Kennedy-Johnson regime, and by the Justice Department under Robert Kennedy, as political expediency after illegal federal confiscation of Seelig's property and files of evidence because of what they disclosed in California government homosexual-communistic perversion corruption.

"Seelig in 1958 through 1960 had uncovered the nationwide secretly organized homosexual society, said it was aligned with Communists, and was following a Moscow directive to undermine sexual laws

and moral codes of the United States," she said. "He had evidence of homosexual slush funds for election campaigns, both state and national, which he linked to the elections of Governor Edmund Brown and States Attorney General Stanley Mosk, now a state Supreme Court Justice.

"Seelig also had made charges that the Pacifica Foundation radio network programs were largely homosexual and communistic. The Congressional hearing in 1963 on the Mattachines and those on the Pacifica Foundation more than substantiated his allegations of five years earlier. Seelig's petitions to Congress for hearing on his political imprisonment have been ignored and are reportedly blocked by the White House."

Disclosures during the past year, Mrs. Chandler said, provide new evidence that organized homosexuals seek to destroy sexual laws, promote pornography, sexual promiscuity and obscene books to corrupt and infect youth. More than 50 per cent of rampant venereal disease, it was reported, is being spread by homosexuals.

Mrs. Chandler said investigators have provided evidence that Bilitis lesbians formed the "Council of Religion and the Homosexual" for the perversion of churches and recruitment of college youth into homosexuality. A Bilitis bulletin disclosed the lesbians giving scholarships now to likely girls.

"The bulletin, also sent to liberals sympathetic to homosexual perversion," Mrs. Chandler said, "cites the Council's objectives: 'Orient the clergy on aspects of homosexuality, encourage pastoral clergy to present the homosexual views on sex,

"In countries known as progressive and enlightened we have created a senseless, filthy, abominable literature. For some time after our entrance to power we shall continue to encourage its existence."

—Theodore Herzl, at a secret conference of the Zionist Congress at Basle, Switzerland, in 1897.

religion, morals and ethics before lay organizations within their churches; provide an effective voice throughout the nation in matters of laws, policies and penal reforms governing adult sexual behavior."

"The testimony in the Mattachine hearings disclosed the society is secret, the organized homosexuals seek to legalize marriages between man and boy, woman and girl and abnormal sex relationships," Mrs. Chandler said.

"The outlawed perverts and new breed of political liberals are advocating 'New Frontier' sexual law changes in California, Massachusetts and New York," she continued. "New York State Supreme Court Justice Samuel H. Hofstader warned: 'Changing the law on homosexuality would amount to legitimatizing an abomination.'

"California State Supreme Justice Stanley Mosk has reportedly gone on record as favoring legalized homosexuality," Mrs. Chandler said. She then cited the subversive educational program being conducted by homosexuals in California churches.

"Excerpts of an address given by a Bilitis lesbian at a religious conference, sponsored by the Glide Foundation of San Francisco, are quoted: 'The orthodox god (sic) of orthodox religion is a flat . . . unmitigated failure . . . the old precepts and concepts of Biblical references such as the one of Sodom and Gomorrah are used to substantiate the sin of homosexuality, as being anti-Biblical, anti-church and anti-Christian . . . the Ten Commandments are valid so long as human experience remains the same, but norms devised centuries ago are now inadequate when confronted with the present problems of sexuality today . . . the changing standard of mental health . . . defenders of civil rights meet with resentment . . . every religious expression is open to critical examination . . . the word (sic) of God is not stagnant, final nor cemented . . . civilization is changing . . . religion must change, too, or perish!'"

"That anti-God lesbian address was given at the Western Regional Study Conference on the Young Adult at the Glide Memorial Methodist Church in San Francisco. The homosexuals and communistic liberals also have formed Leagues for Sexual Freedom as part of a civil rights attack on Christianity's moral codes.

"Other talks were given by Disciples of Sodomy, outcast by God, who are now a power in California and Federal government as has been evidenced also in the White House," Mrs. Chandler said.

W. E. Mohler, Jr., a Los Angeles attorney, espoused homosexuality in his talk at the Mattachine Society's Eleventh Annual Convention recently in San Francisco. The Rev. Canon Robert Cromey, rector of St. Aden's Episcopal Church, spoke on moral and religious aspects of privacy. He was reported as stating: "If homosexual commitment is capable of engendering and deepening love, then the church cannot automatically say homosexuality is sinful."

It was reported to the Methodist Church Conference that Robert Kennedy, while U. S. Attorney General, had appointed an official to study police practices and to hear complaints by the civil defenders of homosexuals, as a new adjunct activity of the Department of Justice. This new federal policy protective of perverts was not told to the public.
